[CHAMPION ACADEMY - HOMESCHOOL EDUCATION
PROGRAMS](#)

Our Mission

At Champion Preparatory Academy (CPA) and Champion Academy, our mission is to partner with parents by providing the support, resources, and programs needed to build a strong, high-quality home education experience—while preparing students for both college and real-world success.

When using Florida PEP or FES-UA scholarships, **families can participate in our programs with no out-of-pocket tuition costs.**

How to Apply for the PEP or FES/UA Homeschool Scholarship

If you are a FL resident and are homeschooling or preparing to homeschool and don't have the PEP or FES/UA scholarship, please learn more. These are available for all FL families as long as funds are available.

Click on the Step Up for Students website [Personalized Education Program - Step Up For Students](#) to learn more about how to apply and specific requirements.

Click on the Step Up for Students [Unique Abilities Scholarship - Step Up For Students](#) to learn more more student with Unique Abilities.

WHY HOMESCHOOL?

Here are some advantages to homeschooling:

- ❑ Customized Learning: Homeschooling allows for personalized instruction tailored to a child's learning style, pace, and interests. This can lead to more effective learning outcomes.
- ❑ Flexibility: Homeschooling offers flexibility of scheduling, allowing families to create a learning routine that suits their lifestyle and individual needs.
- ❑ Stronger Family Bonds: Homeschooling often fosters stronger relationships between parents and children as families spend more time together and work closely on educational activities.
- ❑ Safe Learning Environment: Homeschooled children are not exposed to the negative influences and distractions that can be present in traditional school settings.
- ❑ Opportunities for Travel and Exploration: Homeschooling provides the flexibility for families to travel and explore the world, incorporating real-life experiences into the learning process.

HOW CHAMPION CAN HELP MAKE YOUR HOMESCHOOL SUCCESSFUL!

- We will keep a cumulative folder with your student's records (Progress reports, transcripts, testing, etc.). Should you ever leave Champion, we will send your records directly to the school requesting your records.
- PEP families-We can help you every step of the way with curriculum choices, testing, and guidance. You will not need a Choice Navigator. We do this for you!
- Provide Professional High School Transcripts
- Help with Bright Futures and Dual Enrollment in College.
- Provide K-12 required testing for the PEP scholarship.
- Central FL families, we offer field trip opportunities, park days, and on-campus activities so children feel part of a community.
- Central FL children can enroll in our hybrid school, one day, two days or four days or just take one class.
- Champion provides guidance counselors for all grades. They can help make sure your homeschooling is successful.
- Having professional support will help with parental burnout.
- Seniors will graduate from our fully accredited private school. PEP students have to drop their scholarship the senior year so you can graduate from our private school. PEP students can not be enrolled in a Private School.
- Champion students who have the credentials have been accepted at major colleges across the nation.
- We can help you navigate the PEP scholarship. Champion is an approved provider. All of our part-time on campus classes, homeschool and online curriculum can be paid through the PEP scholarship.
- Champion Academy has an EMA account for PEP scholarship families, which means you can submit your tuition fees directly through your parent portal, so you don't have to pay us and then wait to be reimbursed.

HOMESCHOOL OPTIONS TO FIT YOUR FAMILY'S NEEDS

!

Champion has served thousands of homeschool students since 1995.

We offer two trusted homeschool choices, allowing families to select the option that best fits their educational goals and scholarship eligibility.

Option 1: Champion Preparatory Academy (CPA)

Our fully accredited private school is registered with the Florida Department of Education.

This option is ideal for families seeking a traditional private-school umbrella with full accreditation and a diploma from our private school.

Option 2: Champion Academy

Our fully accredited homeschool service provider is designed specifically for families using PEP or FES-UA scholarships. Champion Academy is not a private school, which is a requirement for participation in the PEP and FES-UA homeschool scholarship programs. This option allows families to use scholarship funds for:

- Part-time on-campus programs
- Homeschool umbrella services
- Online curriculum options

Meet Our Homeschool Administrative Staff

Ms. Vicki Phillips Founder and Executive Director

- Master's degree in Speech Pathology and Minor in Education
- Certified Private School Administrator
- Oversight of all Champion programs including Homeschool Academy
- Homeschooled her children for 18 years
- Passionate about the homeschool community

Mrs. Sylvia Garcia

Director all programs

- AA & AS Administration
- Finalizing Enrollment
- Scholarship Assistance
- Payments & Family Accounting
- Student Records
- Member assistance, general questions on any Champion program
- Homeschooled her children for 16 years

Mrs. Donna Eiger Admissions Coordinator

- Assists with questions about any of our programs
- Assists with questions regarding part-time and full-time campus program enrollment.
- Meets with families on-campus or Teams to answer questions.
- You may schedule an appointment with Mrs. Eiger on our www.championprep.org website.

Mrs. Gonzalez

Guidance Counselor K-3 Homeschool Programs

- K-3 Guidance Assistance
- Records
- Portfolio Reviews
- Progress Reports
- Curriculum choice assistance for K-3
- Homeschooled her children for 8 years
- Montessori Assistant Teacher

Mrs. Stanaland Guidance Counselor for 4-8 & Homeschool Programs

- BA in Education
- MA In Fine Arts
- Provides Guidance Assistance for our grades 4-8 homeschool parents
- Records
- Portfolio Reviews
- Progress Reports
- Curriculum choice assistance for 4-8
- Homeschooled her children for 15 years

Ms. Kim Silbernagel Director of Guidance & Homeschool Programs

- BS from University of Florida
- 9-12 Guidance Assistance
- Records
- Assist with scholarships, including Bright Futures
- Assist with diploma and graduation requirements
- Portfolio Reviews
- Transcripts
- Curriculum choice assistance for 9-12
- Homeschooled her children for 25 years

K-3 ONLINE CURRICULUM WITH TEACHER/TUTOR ON-DEMAND

- **The K–3 Secular Online Program** by Imagine Learning empowers homeschooling students to learn anytime, anywhere, while giving parents full control over the pace of instruction. Designed in alignment with approved educational services and instructional materials, this flexible program includes up to six academic subjects per school year using a thoughtful blend of online curriculum, offline instructional workbooks, and certified teacher support.
- Families choose when and how learning happens, allowing students to move ahead confidently or take extra time when needed. Parents simply upload photos of completed workbook pages and assignments through the online portal, where a Champion-certified teacher reviews work, provides academic feedback, and monitors progress—ensuring accountability without limiting flexibility.
- Students also have access to live, certified teachers who provide individualized instructional support through a secure online platform, reinforcing skills and concepts on demand. This program offers the perfect balance of parent-directed pacing and professional academic oversight, making homeschool learning both flexible and academically strong.
- The curriculum includes all core subjects: English Language Arts, Math, Science and Social Studies. Please download the K-3 Curriculum Information Packet on our website for a complete overview of courses. All courses meet state standards, so you can be assured your child is learning what they need to learn.
- Click here to [Download the Course Catalog for the K-3 Program:](#)

Parent Role

- Parents serve as learning facilitators, supporting daily coursework and submitting completed student work through the secure online portal. Certified teachers provide academic instruction as needed by the child or parent, grading, and progress monitoring to ensure accountability and academic growth. Parents maintain control of the instructional pace and curriculum in alignment with their students' educational needs.

K-3 CURRICULUM PROGRESS REPORT

WHAT IS TEACHER/TUTOR ON-DEMAND?

- **Key Features:**
- **Available for K-3 Online Curriculum and 3-12 Faith-Based Ignitia Curriculum.**
- Certified Teachers provide real-time individualized support and tutoring using a secure online platform. Teachers (live teachers, not AI) use collaborative whiteboards so students can see concepts worked out step by step. Your child will have a tutor at their fingertips.
- Sessions are saved so students can revisit past chats anytime.
- Teacher Support is available 7 days a week:
 - Monday–Friday, 8 AM–10 PM
 - Saturday, 9 AM–4 PM
 - Sunday, 6 PM–10 PM

Online Curriculum Fees

[Click this link to see a fee schedule](#)

Please Note: Online students receive discounted Homeschool Umbrella fees.

FL Families may use your PEP or FES/UA Scholarship to pay for registration and tuition fees.

Florida Families Scholarship Details: Once enrolled, Champion will notify you by email to request you reserve the funds for your registration and tuition fees in your Step Up EMA parent account. Once the funds are reserved, we approve the request, and invoice Step Up to receive payment directly. You do not have to pay anything out of pocket.

Once Champion receives the first payment from Step Up, we will set up your account and have it ready to go within 3-7 days. Please note this process could take up to 30 days. Families may desire to get started right away. To do this you will need to follow Private Pay and then receive reimbursement from the state once you have funds available.

If you want to get started right away, please pay for the registration fees and set up a monthly payment plan on FACTS Tuition Management. Once this is done, we will set up your account within 3-7 days. Champion will give you an invoice to submit to Step Up for reimbursement.

Private Pay: Pay registration fees at the time of enrollment and set up payments on FACTS Tuition Management. You will receive an email with instructions once you enroll.

There is a **one-quarter (90-day) financial commitment** at enrollment. At the end of each quarter, families may withdraw and will not be responsible for any additional tuition or fees.

QUESTIONS AND/OR HOW TO ENROLL

Step 1: Have Questions? We're Here to Help!

- If you have any questions, we're happy to assist you. Click the link below to schedule an appointment with our Admissions team (phone, Microsoft Teams, or in-person) with **Mrs. Eiger**:
- [👉 Schedule an Appointment with Champion Preparatory Academy](#)

Step 2: Ready to Enroll?

- Click the link below to begin the enrollment process:
- [👉 Champion Preparatory Academy – Apply](#)
- Please complete each page of the registration form and select the program(s) you would like to enroll your child in, such as:
- K–3 Online, Champion Academy, Ignitia with Teacher-On-Demand, Ignitia without Teacher Support, Apex Learning
- If you are enrolling more than one child, please complete information for each child.

Microschool (On-Campus) Enrollment

- If you would like to add Microschool classes (on-campus Longwood, FL, please schedule an appointment with Admissions for a family interview and to arrange a student shadow day.
- **Finalizing Enrollment**
- Once enrolled, you will receive an email from our **Registrar** with instructions on how to finalize your enrollment.

Thank you for viewing our Champion Homeschool and Online Curriculum Information. We look forward to partnering with your family to provide flexible, high-quality educational programs that empower students to learn, grow, and succeed.

For questions or more information on any of our programs,
Contact our Admissions Coordinator, Mrs. Eiger.

English Language Arts Grades K–3

Course Setup

The K–3 Language Arts courses are broken down into two semester courses per grade level (for example, Language Arts KA and KB). Each semester course consists of 18 modules with five lessons per module. A student should spend no more than a week completing each module. Students should spend 60–75 minutes a day working on their English Language Arts course. In each module, there are common tasks in addition to the lessons that students must complete. Each K–3 grade level course has a synchronous assessment every six modules and a written benchmark assessment every nine modules. These assessments can be found in the Resources module in Buzz. Starting in first grade, other assessments can be found in each module such as spelling, reading comprehension, and vocabulary quizzes. The chart below shows the breakdown of what can be found in a typical Language Arts K–3 course.

Course Length: 1 semester

Modules: 18

Lessons per Module: 5

Common Module Tasks

- Lessons that include videos, reading, and interactive games.
- Independent Reading Assignment
- Reading Fluency/Story Retell Recording (K–2)
- Fluency Recording (Grade 3)
- Writing Audio Practice Recording (Grade 3)
- Weekly Assignments

Assessments

- **Grades K–3**
 - Synchronous Assessments (Every six modules)
 - Written Benchmark Assessments (Every nine modules)
 - Reading Level Assessment
- **Grades 1–3**
 - Weekly Spelling Test
 - Weekly Reading Comprehension Quizzes
- **Grades 2–3**
 - Weekly Vocabulary Quizzes
 - Weekly Grammar Quizzes

Module Lessons

Each module in the K–3 Language arts courses has five lessons. A student should complete one lesson a day in order to complete the module in one week. Each lesson covers certain components for a balanced literacy program. The lesson components are described below

Lesson Component	Description
Spelling 	Weekly spelling words focus on a phonics pattern and sight words.
Sight Words 	Each week students will be introduced to new sight words for their grade level. Sight word flashcards are included in the lessons for students to print and study or add to a word wall.
Vocabulary 	Vocabulary words are new words found in the weekly reading selection.
Reading 	Weekly stories match the theme of the week. There are both fiction and non-fiction literature to practice reading comprehension and fluency.
Grammar 	A new grammar concept is introduced each week. Students may also practice finding grammatical errors in a paragraph.
Writing 	A different type of writing is introduced each week using the writing process. Prewriting, drafting, editing, revising and publishing stages are all practiced.
Phonics 	There are weekly phonics activities incorporated in each lesson within each module.
Fluency 	Once a week students will be asked to record themselves reading the weekly story. They will submit the recording to their teacher for a fluency check.
Handwriting 	Students will practice handwriting letters, words, and sentences in a variety of activities.

Lessons are structured to follow the format below:

Introduction	New concepts will be introduced in each module through text, video, and interactives.
Practice	Once introduced, new concepts will be practiced through interactives and worksheets.
Review	Previously learned concepts will be reviewed throughout the year to strengthen the students' understanding.

Sample Schedule

Some grade levels do not include all of these activities.

Day 1	Day 2	Day 3	Day 4	Day 5
Spelling Word Intro	Spelling Practice Worksheet	Spelling Interactive	Spelling Practice Worksheet	Spelling Test
Vocabulary Intro	Vocabulary Interactive	Vocabulary Interactive	Vocabulary Interactive	Vocabulary Quiz
Reading Concept/ Skill Intro	Reading: Set a Purpose	Reading: First read of weekly story	Reading: Second read with comprehension review	Reading Comprehension Quiz
Grammar Intro	Grammar Interactive	Grammar Interactive	Grammar Quiz	Grammar Paragraph Edits
Writing Topic Intro	Writing: Brainstorming	Writing: Drafting	Writing: Editing and Revising	Writing: Publish
Journal Entry	Handwriting	Fluency	Handwriting	Independent Reading

Below are some key features that can be found in a lesson.

Interactives	Embedded interactives allow students to interact with newly learned concepts and receive immediate feedback.
Videos	Videos are used to support the understanding of new concepts throughout the course.
Worksheets	Worksheets are included as another method of practicing each concept throughout the year.

Independent Reading

A weekly independent reading assignment is built in to each module. Students are expected to read books that they choose at their reading level daily for 30–40 minutes a day. Teachers will assess the student’s reading level and review with them how to choose a just right book. The Learning Coach working with the student will help the student make choices. An excursion to the library is an excellent place to choose just right books.

Independent Reading Log

You may choose a book to read independently each week. The librarian at the local library can help you find appropriate books to read, or you can visit the website shown below.

<https://lexile.com/findabook/>

Weekly Reading Log Questions

Each week, you will be asked to answer the following questions about the book you read. Make sure you can answer these questions by the end of each week.

Fiction	Non-Fiction
1. Who was the main character(s)? 2. Describe two events in the story that you liked. 3. What did the main character learn or do in the end?	1. What is it about? 2. Describe/Explain three things that you learned.

Week	Title	Author	Pages Read	Read To/Read Alone

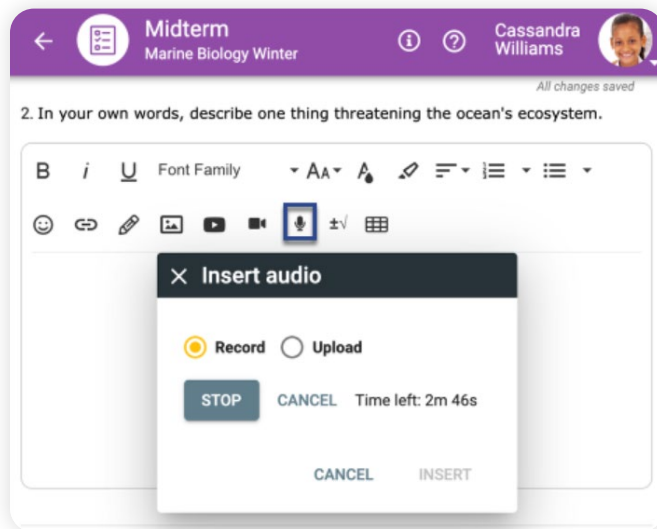

Weekly Reading Log Questions

If you read a fiction book, answer the questions in the Fiction column. If you read a non-fiction book, answer the questions in the non-fiction column.

Fiction	Non-Fiction
1. Who was the main character(s)? 2. Describe two events in the story that you liked. 3. What did the main character learn or do in the end?	1. What is it about? 2. Describe/Explain three things that you learned.

Student Audio Recordings

As part of the standards, students are required to speak, and speak often. One of the ways this is addressed is through story retells and fluency checks. Within each module, there is an assignment that prompts students to record themselves retelling the story that was read during the module. The student is also asked to record themselves reading the story to practice fluency. In third grade, students will be asked to record themselves reading their writings out loud. Students are taught how to do a recording in the Resources module of the course.

Weekly Assignments

In each lesson, students will encounter activities for them to download, print and, complete. These activities are worksheets. They will be asked to scan and submit them in the weekly assignments section of the module. Please note: These activities are also available in a workbook for an additional cost.

Phonics: Short a Word Wrap Up

It is time to show all that you have learned with the **a** sound.

Phonics

You will be practicing the **a** sound one more time this week.

Click on the link below to see the phonics activity. Be sure to turn this into your teacher when you are finished.

Activity

Module 1 Weekly Written Work: Your Family

Students:

As you complete each daily page of work you will need to turn some work into your teacher for a grade. Other work is completed for you to learn and practice. Follow the list below so that you know what to turn in.

Checklist:

- 1.1 Sentences
- 1.1 Writing: Similarities and Differences
- 1.2 Reading Comprehension

SHOW DROPSBOX

Assessments

In grades K–3 English Language Arts students will encounter different assessments based on their grade level. In every course for Grades K–3 there will be three assessments given by the teacher. They are the following:

- Written benchmark assessments are a cumulative assessment covering content from nine modules. They are given in modules 9 and 18.
- Synchronous assessments are designed to be used during live session for immediate feedback. They cover phonics, sight word recognition and other concepts. These are given in modules 6, 12 and 18.
- Reading level assessments: The teacher will be testing the reading level of students throughout the course.

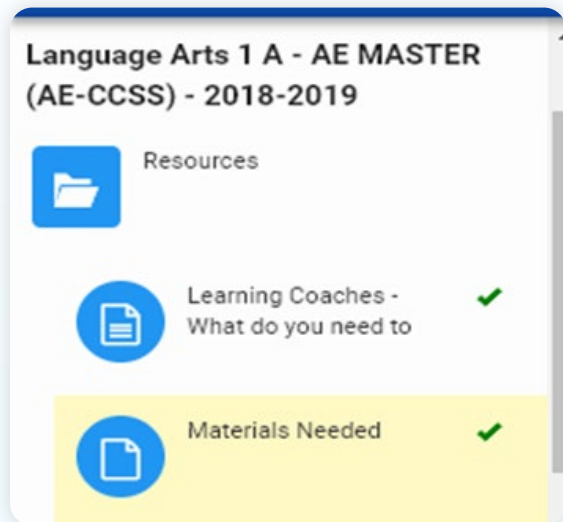

Course	Module Quizzes
Language Arts 1	<ul style="list-style-type: none"> • Spelling • Reading Comprehension
Language Arts 2	<ul style="list-style-type: none"> • Spelling • Reading Comprehension • Vocabulary • Grammar
Language Arts 3	<ul style="list-style-type: none"> • Spelling • Reading Comprehension • Vocabulary • Grammar

The chart above shows the types of quizzes students will be given per module by grade level in English Language Arts in addition to the assessments mentioned above.

Materials Needed

Materials needed for each lesson will be listed prior to the lesson in the learning coach tab or a materials list for the course can be found in the resource module at the beginning of each course.

Students are expected to have typical school supplies such as: paper, pencils, crayons, markers, scissors, glue, etc. Students will also be expected to have access to books at their independent reading level.

Objectives

Students will:

1. This will list what students will be doing in a lesson.

Skills Needed

Students must be able to:

1. This will list the skills needed to complete the lesson objective.

Materials Needed

Students will need:

1. This will list the materials needed for the lesson.

Key Words

Any key concepts within the lesson will be listed here.

Learning Coach Tab

Each lesson has a learning coach tab. The learning coach tab is a tab that has information for the adult that is helping the child progress through the course at home. The learning coach could be a parent, a grandparent or any other designated adult in that household.

The learning coach tab is designed to help an adult who is at home with the student to guide them through a lesson. Learning objectives, prerequisite skills, and any materials needed to complete the lesson will be listed. Below, you can see a sample page of what the learning coach tab will look like in each lesson.

Math Grades K–3

Course Setup

The K–3 math courses are broken down into two semester courses per grade level (for example, Math KA and KB). Each semester course consists of 18 modules with lessons in each module. A student should spend no more than a week completing each module. Students should spend 45–60 minutes a day working on their math course. In each module, there are common tasks in addition to the lessons that students must complete. Each K–2 grade level course has a benchmark assessment every nine modules. In addition to the assessments mentioned grades K–3 have a quiz every module as well.

Course Length: 1 semester

Modules: 18

Common Module Tasks

- Lessons that include videos, reading, and interactive activities.
- Worksheets
- Lesson Notes

Assessments

- **Grades K–3**
 - Written Benchmark Assessments (Every nine modules)
 - Module Quiz
- **Grades 1–3**
 - Module Quiz

Module Lessons

Below are some key features that can be found in a math lesson.

Interactives	Embedded interactives allow students to interact with newly learned concepts and receive immediate feedback.
Videos	Videos are used to support the understanding of new concepts throughout the course.
Worksheets	Worksheets are included as another method of practicing each concept throughout the year.

Below is a list of the key math components focused on throughout each math course.

- Operations and Algebraic Thinking
- Numbers and Counting
- Measurement and Data
- Geometry and Fractions
- Time and Money

Lessons are structured to follow the format below:

Introduction	New concepts will be introduced in each module through text, video, and interactives.
Practice	Once introduced, new concepts will be practiced through interactives and worksheets.
Review	Previously learned concepts will be reviewed throughout the year to strengthen the students' understanding.

Math Assignments

In each lesson, students will encounter activities for them to download, print and complete. These activities are worksheets. They will be asked to scan and submit them after the lesson. There are also times when a student will be asked to print a worksheet for them to complete while watching a video. They will be asked to submit these as well in the course.

Creating Patterns

Can you create patterns with shapes?

In this activity, you will create patterns of your own. When finished, submit it to your teacher for a grade. Each pattern is worth 6 points for 12 points total.

Activity 

Creating Patterns Assignment

Name: _____

- Look at each of the patterns below and then decide "What comes next?" Color the pictures that continue the pattern.

1. "AB Patterns" - Look at the jam pot pattern below. Can you tell what comes last? Color the last pot to continue the pattern.

Lesson Notes

Lesson Notes

Print out your Lesson Notes to complete when told to do so on each page.

Click on the **Print** button to download and print your notes organizer for this lesson. When told to write in your Lesson Notes, use this form.

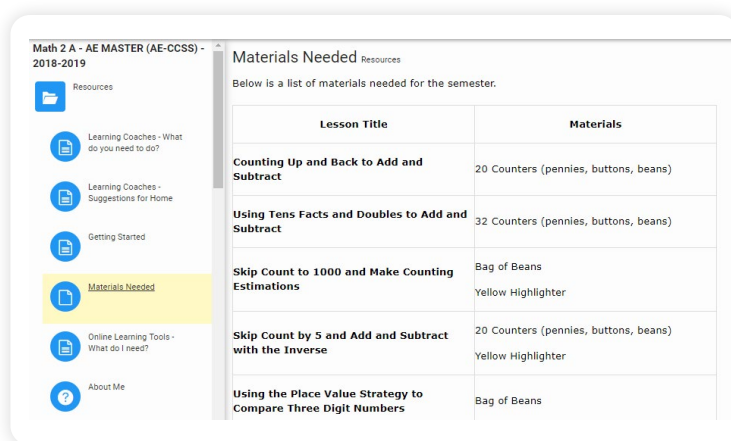

Print 

2nd and 3rd grade math students will be asked to download and print lesson notes. They will fill out these notes when directed throughout each lesson. Students will be asked to turn in their notes.

Assessments

In grades K–3, math students will encounter different assessments based on their grade level. In grades K–3, students will meet with their teacher every six modules to complete a benchmark assessment. There is also a module quiz for students to complete in every module. Below is a chart that shows the breakdown of assessments by grade level in each Math course.

Course	Module Quizzes
Math K	<ul style="list-style-type: none"> • Module Quiz • Synchronous Benchmarks (Every six Modules) • Written Benchmark Assessment in Module 9 and 18
Math 1	<ul style="list-style-type: none"> • Module Quiz • Synchronous Benchmarks (Every six Modules) • Benchmark Assessment in Module 9 and 18
Math 2	<ul style="list-style-type: none"> • Module Quiz • Synchronous Benchmarks (Every six Modules) • Benchmark Assessment in Module 9 and 18
Math 3	<ul style="list-style-type: none"> • Module Quiz • Synchronous Benchmarks (Every six Modules)

Materials Needed

Materials needed for each lesson will be listed prior to the lesson in the learning coach tab. The materials list for the course can also be found in the resource module at the beginning of each course.

Students are expected to have typical school supplies such as: paper, pencils, crayons, markers, scissors, glue, etc.

Learning Coach Tab

Each lesson has a learning coach tab. The learning coach tab is a tab that has information for the adult that is helping the child progress through the course at home, it could be a parent, a grandparent or any other designated adult in that household. The learning coach tab is designed to help guide you through a lesson. Learning objectives, prerequisite skills, and any materials needed to complete the lesson will be listed. Look below to see a sample page of what the learning coach tab will look like under each lesson tab.

Science Grades K–3

Course Overview

K–3 Science uses a mixture of exploring the world around them combined with hands-on experiences using nature or common household items. Science courses are aligned to Next Generation Science Standards (NGSS). Each grade has two semester courses. Each course has six modules in it. The pacing per module should be three weeks so that the student can finish the course in one semester, which is 18 weeks. The chart below summarizes the overarching science topics covered in each grade level.

Course	Life Science	Earth and Space Science	Physical Science	Science/Engineering Practices
Science KA and B	<ul style="list-style-type: none"> • Animal Behavior • Animal Habitats • Animal Camouflage • Plant Growth • Animals and their Offspring • Earth Worms and Soil 	<ul style="list-style-type: none"> • The Seasons • Weather • Stars and Constellations • Ecosystems 	<ul style="list-style-type: none"> • Force and Motion • Magnets • States of Matter 	<ul style="list-style-type: none"> • Using Five Senses
Science 1A and B	<ul style="list-style-type: none"> • Classifying Leaves • Seeds • Animal Tracks • Animal Needs • Animal Habitats • Animal Hibernation • Nocturnal and Diurnal • Animals • Life Cycle of a Plant • Pollination 	<ul style="list-style-type: none"> • Moon Phases • Seasons • Weather • Constellations • Erosion • Pond, forest Ecosystems • Cloud Formation 	<ul style="list-style-type: none"> • States of Matter 	<ul style="list-style-type: none"> • Scientific Inquiry • Reading a Thermometer
Science 2A and B	<ul style="list-style-type: none"> • Animal Behavior • Animal Characteristics • Animal Habitats • Animal Needs • Trees and Leaves • Vertebrates and Invertebrates • Warm- and Cold-Blooded Animals • Food Chains • Frog Life Cycle 	<ul style="list-style-type: none"> • Earthquakes and Volcanoes • Biomes 	<ul style="list-style-type: none"> • Properties of Matter • Heat and Temperature • States of Matter 	<ul style="list-style-type: none"> • The Five Senses
Science 3A and B	<ul style="list-style-type: none"> • Plant Respiration • Trees • Photosynthesis • Roots of a Plant • Plants and Water Absorption • Life Cycles • Heredity and Genetics • Characteristics of Vertebrates • Animals and Camouflage • Plant Stems • Biodiversity and Extinction 	<ul style="list-style-type: none"> • Earth and Sun • Moon Phases • Water Cycle • Weather • Global Climate Zones • History of Life on Earth • Landforms • Seasons • Interdependence of Man and Nature • Natural Resources • Caves • Rock Cycle 	<ul style="list-style-type: none"> • Gravity • Electricity • Forces and Movement • Magnetism 	

Lesson Structure

While the overall structure is consistent from lesson to lesson, lessons will vary in the order and frequency with which they use or offer activity types. Each module contains several lessons. All lessons begin with a lesson intro page which is written and presented to the learning coach. Each lesson ends with an assignment. The number of pages in each lesson, and the types of activities students do for each lesson, may vary widely.

In general, each lesson consists of the following:

Lesson Component	Description
A Lesson Intro Page (This is on the Learning Coach Tab)	It includes objectives, prerequisites, materials, and key words. As such, it can be a useful guide for the teacher.
Video Presentations	Students will view at least one video per lesson; some lessons will contain many more videos, and some will have fewer, depending on the topics covered.
Questions and Show Me Activities	Often, lesson pages ask students to think about the answer to a question before clicking a button to see the answer. Encourage students to make sure they have a clear response in mind for each question before clicking to see the answer. The general idea of these activities is to encourage student engagement with the content.
Practice Activities	Students will encounter many chances to practice and get feedback on their progress during a lesson. Practice activities for this course may be online drag-and-drop exercises, multiple-choice questions, slideshows, or downloadable worksheets that students will fill out and send to the teacher for feedback. In some cases, practice worksheets will be provided along with an answer key. These are intended for additional practice for students as a self-check.
Summative Assignment	As students complete each module, students will turn in the lesson assignment into the drop box which will be in your teacher gradebook.

Social Studies Grades K–3

Course Overview

K–3 Social Studies will cover a variety of topics. Each grade has two semester courses. Each semester last 18 weeks. In grades K–1, there are 18 modules in each course. Each module is meant to be completed in one week. In grades 2–3, there are six modules in each course. Each module is meant to be completed in three weeks. The chart below summarizes the overarching social studies topics covered in each grade level.

Course	Topics Covered		
Social Studies KA and B	<ul style="list-style-type: none"> • All About Me • Rules and Consequences • Family • Past, Present, Future • Life in the Past • Historical Americans 	<ul style="list-style-type: none"> • American Holidays • Everyday Heroes • Conflict Resolution • Map Skills • My Neighborhood • My State 	<ul style="list-style-type: none"> • U.S. Symbols • Currency • Wants and Needs • Community • Voting
Social Studies 1A and B	<ul style="list-style-type: none"> • Map Skills • Climate and Weather • Character Education/Conflict Resolution • Government 	<ul style="list-style-type: none"> • U.S. Symbols and Landmarks • Celebrations • World Cultures • Past, Present and Future 	<ul style="list-style-type: none"> • Historical Americans • Folklore • Native Americans • Economics
Social Studies 2A and B	<ul style="list-style-type: none"> • Ancient Chinese Folklore and Culture • Ancient Celtic Cultures, Movement and Traditions • Geography of Africa and the British Isles 	<ul style="list-style-type: none"> • Locating Oceans and Continents • Economics • Women’s Suffrage Movement • Ancient African Culture and Fables • Map Skills 	<ul style="list-style-type: none"> • Environmental Regions • Human, Capital and Natural Resources • Laws and Voting • Community
Social Studies 3A and B	<ul style="list-style-type: none"> • Cultural Diversity in Ancient Civilizations • Importance of Native American Tribes • Importance of Exploration in Relation to the US • Geography and Map Making Skills 	<ul style="list-style-type: none"> • Identifying Important Land Features • Understanding Important Economic Fundamentals • Specialization and Interdependence • Production of Goods and Importance of Trade 	<ul style="list-style-type: none"> • Development of Government and Laws • Important Documents that Shaped the United States • Principles of a Republican Government

Lesson Structure
